RELIANT™ PLUS

Guard Tour Verification System

The *Reliant PLUS* system from **DETEX** provides a complete, easy-to-use solution for guard tour verification and other data-collection applications. It offers ruggedness and reliability at a value price level.

Benefits
- Reliant PLUS system kit contains everything you need for a complete guard tour system
- Easy to set up and use
- Industry-standard touch-memory reading technology
- Can be retrofitted into existing iButton® installations
- Software facilitates detailed analysis of officers' performance and provides accountability
- Complete system package at an economical price point

Features
- Expandable system accommodates multiple readers, checkpoints, officers and incidents
- Rugged, waterproof reader with no external controls, heavy-duty stainless steel reading head and user-changeable "AAA" batteries
- Durable, stainless steel iButton data points
- Sturdy incident book and keypad for creating and reporting up to 9,999 incident codes
- Three report formats; sorting and filtering functions allow flexible reporting capabilities
- Reports can be exported to Microsoft Excel or other databases
- Readers can be downloaded in the field with optional Mobile Data Transfer Unit
- Kit contains: Reliant reader with holster, downloader, software, incident book, 10 complete iButton checkpoints and 2 iButton ID keys
